# The Cardknox NetSuite Payment Processing Bundle

Supercharge Your Business Performance With Our NetSuite Payment Gateway Integration

Accept ACH and credit card payments directly from NetSuite with the Cardknox Bundle for NetSuite! Securely save customer payment information on file to experience the quickest billing process, and enjoy access to Cardknox's array of flexible features and low processing rates.

## How NetSuite Benefits Your Business

- ✓ **Process ACH and Credit Card Payments**  
Give your customers the choice to pay with either an ACH direct transfer or a credit card.
- ✓ **Use Undeposited Funds as a Payment Account**  
Have payments deposited to your undeposited funds account, rather than your standard bank account.
- ✓ **Keep Customer Payment Information on File Safely and Securely**  
The Cardknox payment gateway features advanced tokenization technology to keep payment data secured, enabling you to store payment information and pay outstanding balances with ease.
- ✓ **Email Payment Requests to Customers**  
Send a NetSuite payment request by email, which includes a link to an online payment form. After payment, the customer automatically receives a payment receipt.
- ✓ **Employ Simple PCI Compliance and Robust Security**  
Our tokenization technology allows us to keep data fully out-of-scope of PCI compliance.
- ✓ **Issue Voids Seamlessly**  
When you void a transaction in NetSuite, the transaction will also be voided at the Cardknox gateway level.
- ✓ **Process Bulk Payments for Multiple Customers**  
Process payments for open invoices from different customers all at once. Invoice different amounts and choose each customer's payment method.
- ✓ **Flexible Payment Methods**
  - Multi-Merchant Support
  - Support for Customer Deposits, Refunds, Cash Sales, and Cash Refunds
  - Next-Day Funding
