

# The Cardknox NetSuite Bundle

Supercharge Your Business Performance With Our  
Integrated Payment Solution for NetSuite

---

Accept ACH and credit card payments directly from NetSuite with the Cardknox Bundle for NetSuite! Securely save customer payment information on file to experience the quickest billing process, and enjoy access to Cardknox's array of flexible features and low processing rates.

## How NetSuite Benefits Your Business

---

### Process ACH and Credit Card Payments

Give your customers the choice to pay with either an ACH direct transfer or a credit card.

### Employ Simple PCI Compliance and Robust Security

Our tokenization technology allows us to keep data fully out-of-scope of PCI compliance.

### Use Undeposited Funds as a Payment Account

Have payments deposited to your undeposited funds account, rather than your standard bank account.

### Issue Voids Seamlessly

When you void a transaction in NetSuite, the transaction will also be voided at the Cardknox gateway level.

### Keep Customer Payment Information on File Safely and Securely

The Cardknox payment gateway features advanced tokenization technology to keep payment data secured, enabling you to store payment information and pay outstanding balances with ease.

For more information, please contact your Sales Agent or  
the Cardknox Customer Service Department at 1-844-227-3566.
